

# **SCERA ART STUDIOS**

**Director: Ashley Harvey**

Ashley Harvey has been creating art since she could pick up a pencil. From birth, the fine arts have been an integral part of her character make up. Although her expertise lies in the visual arts, she has participated in music, voice, and dance classes throughout her life. A California native, Ashley completed her Bachelor of Arts Degree at California State University, Stanislaus in 2009. The past four years have been a combination of school and The Stanislaus Arts Council, a program focused on integrating visual arts into children's lives by teaching art classes in elementary schools, after school programs, and community centers. Her own work has been displayed in a series of art shows both on her college campus and nearby cities. Ashley continues to create, constantly experimenting with new mediums and refining her skills as an artist. She and her husband, who is studying animation at BYU, recently moved to Utah County.
